

海外電子ポスター (CyPos) プログラム

4月4日(金)~4月6日(日)

- 1 Prospective comparative study of two imaging protocols in patients with acute stroke
UAE University Ruth D Langer
- 2 Urgent CT Brain Service for Acute Stroke: 5 year local experience
Chinese University of Hong Kong Yiu Ching Tiffany Chu
- 3 Systemic Review and Update on Current Management of Intra-arterial Thrombolysis & Treatment of Vasospasm in Acute Stroke Patients
The Chinese University of Hong Kong Vincent Lai
- 4 Tortuosity of supra-aortic vessels: is this correlated with symptomatology? Cagliari University Luca Saba
- 5 What is the best Intraluminal Hounsfield Units number to study carotid arteries
Cagliari University Luca Saba
- 6 Carotid plaque in the 80 years old and over patients: evaluation by using Multi-detector-row CT Angiography
Cagliari University Luca Saba
- 7 Clinical risk factors for breast cancer: experience on self-referred mammography-screened population in Hong Kong 1998–2002
Kwong Wah Hospital Chun Wai Wong
- 8 A comparison between radioguided occult breast lesion localisation (ROLL) and hookwire-guided lumpectomy (HWL)
Tuen Mun Hospital Kar Ki Katherine Chan
- 9 Increased ¹⁸F-FDG Uptake in Breast Cancer Correlates with Lymph Node Spread and Distant Metastasis: A Study with FDG-PET/CT Image Fusion
Menoufiya University & Dokkyo Medical University Ashraf Anas Fahmy Abdel Hamid Zytoon
- 10 Does the use of high flow rate provide better results in the study of hepatic vasculature?
Cagliari University Luca Saba
- 11 Early detection of residual or local recurrent HCC after TACE and / or RFA: Usefulness of High-b-value Diffusion-weighted MR Imaging
University of Yamanashi Ali Mutasher Muhi
- 12 Technetium 99m Pertechnetate Scan in the Detection of Meckel Diverticulum: A 10 Years Local Experience
Tuen Mun Hospital Ping Kuen John Hui
- 13 Colorectal cancer: Synchronous cancer found in PET/CT examination
Dokkyo University Gustavo S Kishimoto
- 14 Congenital peritoneal band causing small bowel volvulus in paediatric patient
Chinese University of Hong Kong Chun Sing Wong
- 15 Can bone isoenzyme of serum alkaline phosphatase predict the outcome of bone scan?
United Christian Hospital Kimmy King Ming Kwok
- 16 CT-guided percutaneous aspiration of intraspinal cysts prior to operative intervention: our experience and discussion of management
Tuen Mun Hospital Kar Ki Katherine Chan
- 17 Pictorial Review of Complication of Abdominal Aortic Aneurysm
Queen Elizabeth Hospital Sheung Ming Sherman Lo
- 18 Stenting for Symptomatic Stenosis of Superior Mesenteric Arteries
The First Affiliated Hospital of China Medical University Xitong Zhang
- 19 Evaluation of image quality and reconstruction phase of coronary angiography using dual-source CT at different heart rate
First Affiliated Hospital of China Medical University Peiling Li
- 20 Clinical study of Multisection Spiral CT perfusion for pancreatic cancer
Liao Ning Thrombosis Hospital Qi Wang
- 21 The Study of Acute Pancreatitis by MSCT Perfusion Imaging
The First Affiliated Hospital of China Medical University Xin Wang
- 22 The design and pharmacokinetics in vivo of rapamycin-PLGA membrane eluting stent
The First Affiliated Hospital of China Medical University Yong-hui Xia
- 23 Application of Multislice Helical CT in Detection of Intracranial Aneurysms with Acute Subarachnoid Hemorrhage
LiaoNing Province Thrombosis Hospital Fei Yang
